CANAL LANDS OF
OHIO TO BE SOLD

And Money Turned Over to
Counties for Road
Purposes

SHOULD WEYGANDT'S
MEASURE PREVAIL.

Author of the Bill Presents
Statement Defining
His Policy.

Says State Has Wasted Its
Money in Keeping Up
the Canals.

Columbus, O., Jan. 31.—In explaining more fully his plan to sell all the canal lands of the state, Senator William A. Weygandt, of Portage county, said today that it was his idea to turn the money realized from such a sale over to the counties to be used in building, improving and maintaining roads. Senator Weygandt has prepared a long list of questions which at the present time are in the hands of Governor Cox. On the answers to these questions, Senator Weygandt hopes to be able to base a bill which will meet with the approval of the legislature.

A statement issued by the senator today follows: "I agree with the state superintendent of public works, John I. Miller, that it is time to have a settled canal policy, and that policy should be, I believe, one in harmony with the progressive spirit of the age, in this particular instance, to meet the demands for good roads by realizing on our dormant and dead assets as now constituted in the canals of the state. We are entering upon the era of improved highways, and every by-road as well as main highway in the state should be improved.

"I would have the fund obtained by disposing of the canal lands distributed equally to the 88 counties of the state, and in that way these counties would get back the large sum that they have contributed for the past 50 years to what is now a dead industry. In many counties, highways have already been macadamized or otherwise improved by the expenditure of many thousands of dollars but have been neglected in their maintenance, and I would have all or a part of the canal money set aside in each county for improved road maintenance, this fund to constitute a permanent fund in each county. If twenty million dollars should be realized by the sale of canals, that would make approximately \$228,000 to each county. If that should be regarded as too much money to be placed on interest for road maintenance, a portion could be used for road building, but a large portion should be set aside for maintenance and nothing else.

"The legislature, if my ideas can be worked out this session, should not provide for receiving bids for the canal lands until say July 1, 1914, in order to give time to all persons or corporations abundant time to select the property they want and bid on it. There should be no restrictions on bidding so far as giving every interest, large and small, an opportunity to purchase at the real value of the lands. The appraisers should be men who will be absolutely disinterested and will fix a fair marketable value on the land.

"In cases like Akron and other cities and towns where the municipalities and manufacturers as well depend upon the canal for water rights and power, the municipalities could be given the right to appropriate and the manufacturers could form holding companies and purchase the state property. Natural lakes on the state property would of course have to be retained by the state, and the conservation of natural resources doctrine could be applied to them and perhaps to the big reservoirs, but inasmuch as the canals themselves are artificial, this principle would not apply to them. The state has sunk money in the waterways in a few short years, nearly a half million dollars in pretending to improve the northern portion of the Ohio canal. I believe that it is now time to get our money back."

RAIN AND SNOW WAS NO BARRIER.

Columbus, O., Jan. 31.—Braving a combination of rain and snow and notwithstanding the fact that the services would not be formally opened for several hours, hundreds of women began to gather as early as 9 o'clock today in front of the tabernacle when Rev. "Billy" Sunday, the evangelist, was to deliver an address to women only. A remarkable demonstration late yesterday when a local saloon keeper, his face bathed in tears, led the large number of those who "hit the sawdust trail" and signed the cards pledging themselves to live better lives.

HOME RULE PARTY WON

A Notable Victory Over the
Unionists in Election
Yesterday.

LONDONDERRY SENDS
HOGG TO COMMONS

Defeating Pakenham, the
Unionist, by Slender
Majority.

Londonderry, Ireland, Jan. 31.—The Irish home rule party won a notable victory over the unionists in the election of a member of parliament for this city yesterday.

The poll which as usual was a very close one, resulted as follows: David C. Hogg, nationalist, 2,699. Colonel H. A. Pakenham, unionist, 2,642.

Majority 57. The seat had been held since 1900 by the Marquis of Hamilton who was recently elevated to the house of lords on the death of his father, the Duke of Abercorn.

The victory of the home rulers gives them a majority of members of parliament from the provinces of Ulster in the house of commons. The announcement of the result of the polling was followed by extraordinary scenes. The pent-up excitement of the populace was vent in wild demonstrations. A deafening tornado of shrieks, cheers and hisses broke loose and this was accompanied by the firing of revolvers in the air, while green and red handkerchiefs and union jacks fluttered over the heads of the surging crowd.

The nationalists sang "A Nation Once Again," to which the unionists responded "Rule Britannia," and "God Save the King." Mounted and foot police had to clear the way for Mr. Hogg and Colonel Pakenham while they were on their way to their hotels.

The rival crowds of home rulers and unionists came into contact at one point of the city. There was much stone-throwing and the police were obliged to charge and disperse the people with their clubs.

LONDON, JAN. 31.—THE TURKISH GOVERNMENT TODAY SENT ORDERS TO THE OTTOMAN PEACE PLENO-TENTIARIES TO LEAVE LONDON AT ONCE FOR THE TURKISH CAPITAL, ACCORDING TO A DISPATCH FROM CONSTANTINOPLE.

London, Jan. 31.—The overwhelming strength of public opinion throughout Europe in favor of peace in the Balkans is exercising a profound influence on the peace delegates in London. The European ambassadors here will shortly make themselves the mouthpiece of this widespread sentiment in order to convince some of the more unyielding spirits among the representatives of the allies.

The European diplomats take the view that Turkey, especially for the revolutionary movement which brought into power men considered as reconcilable on the question of Adrianople could not offer more than what was contained in yesterday's reply to the powers. This they think justifies the resumption of negotiations between the allies and the Ottoman empire.

The Turks with their usual shrewdness, instead of simply asking for the holy shrines and a few more monuments of historic or religious character in the city of Adrianople, suggested dividing the city by the river Maritza, they taking the part situated on the left bank. This gives them the lion's share, although they leave to Bulgaria the railway station on the line communicating with Macedonia.

This concession, however, is not regarded as their final word on the subject. The way to an accommodation between the parties may still be left open.

It is thought that the men now ruling at Constantinople wish to have at least the appearance of not ceding as much as their predecessors.

Germany is Pessimistic.

Berlin, Jan. 31.—Great pessimism regarding the Balkan situation is displayed in official circles here owing to Bulgaria's uncompromising attitude. Germany in conjunction with the other powers is doing her best to persuade Bulgaria and Turkey to attempt to reach a compromise but the resumption of hostilities on Monday next is regarded as highly probable.

INDIANS ASK FOR INDIAN OFFICIAL.

Washington, Jan. 31.—A council of Indians here with fifty delegates representing the Arapahoes, Shoshones, Omahas, Sioux, Winnabagoes and Chippewas, adopted a resolution urging President-elect Wilson to appoint Thomas L. Sloan of Pender, an Omaha Indian, commissioner of Indian affairs. The declaration was made that the Indians deserved to have in charge of their affairs a man who was familiar with them and in sympathy with the Indian people.

POLICE RESERVES WERE CALLED OUT.

Columbus, O., Jan. 31.—Scenes bordering on riot marked the opening today of the meeting for "women only" at the tabernacle of Rev. Billy Sunday, the evangelist. The crowds began gathering as early as 7:30 a. m. and the great building was packed to its capacity by 10 o'clock.

Shortly before 11 o'clock more than one thousand women rushed the doors at one of the entrances, sweeping ushes and police officers from their feet. A call was sent to headquarters and all of the city's police reserves were dispatched to the place to assist in preserving order. The doors of the tabernacle were closed at 10:45 with thousands of women left standing in the rain and slush on the grounds. Several women were seriously bruised in the wild stampede into the building.

Reports from the principal pipe line companies show that during this month the runs from wells located in the eastern fields, including Ohio and Indiana, have averaged a little more than 115,000 barrels a day, while during the same period shipments have averaged a little more than 15,000 barrels a day an excess of consumption over production of about 100,000 barrels during January. So prosperous have some of the oil companies become that one Pittsburgh company declared a 160 per cent dividend.

HIT BY FOUL BALL; ASKS BIG DAMAGES.

Chicago, Jan. 31.—Suit for \$25,000 damages was filed in the superior court yesterday, by Mrs. Annie Dobkin against the Chicago National league baseball club, because of injuries sustained by being struck by a foul ball batted from the West Side park during a game last summer.

Mrs. Dobkin alleges that the ball sailed over the park fence and into a window of her home where she was seated. The ball, according to the attorneys for the plaintiff, struck the woman in the head, knocking her off the chair and causing partial paralysis, which rendered her helpless for several months.

Bill Introduced to Regulate
Grading of Teachers'
Certificates.

Columbus, O., Jan. 31.—All first class high schools in Ohio will have manual training and domestic science departments, and a state industrial high school board will be established to regulate such departments, if a bill introduced today by Representative Hoaglin, of Paulding county, is passed by the general assembly. The bill provides that high schools wishing manual training departments make application to the industrial high school board, and if such application is granted, half of the cost of establishing and maintaining such departments be carried by the state. The bill would allow such first class high schools to acquire land for agricultural experiments.

Representative Hoaglin also introduced the administration bill providing for a commission of three members to be appointed by the governor to make a survey of the schools of the state with a view to determining and defining the powers of such schools.

Said to be a model of its kind, a bill providing for the sterilization of habitual criminals and those mentally deficient, was introduced by Representative Cowan of Putnam county. The bill was drawn with the aid of the medical societies of the state, and according to Mr. Cowan, will greatly assist in correcting the health of future generations.

A bill regulating private employment agencies to secure licenses from the state labor commissioner, was introduced today by Representative Vollmer, of Cleveland. For cities with a population of 50,000 or more the license fee would be \$100; for cities from 10,000 to 50,000, \$75; for cities less than 10,000, \$50, and for all villages \$25.

Another bill introduced by Representative Hoaglin prohibits teachers from securing teachers' certificates unless they have had one year's experience, have graduated from a high school or academy and have had six weeks in an accredited normal school. A bill by Representative Fellinger, of Cleveland, provides that foreign fire insurance companies must show that they have satisfied all claims against them before they can withdraw their deposits from the state.

Now they only have to satisfy claims in Ohio.

The following bills were introduced in the house today:

Mr. Borgs, of Belmont. To regulate sale of insecticide.

Mr. Vollmer, of Cuyahoga. To regulate employment agencies.

Mr. Fellinger, of Cuyahoga. Provides that foreign fire insurance companies must show that they have satisfied all claims against them before they can withdraw their deposits from the state.

Mr. Hoaglin, of Paulding. To require normal training of teachers who are given state certificates.

ency appropriation bill. Mr. Cowan, of Putnam. Provides for sterilization of feeble minded criminals and other defectives.

Mr. Kilpatrick, of Trumbull. To correct code to fix time for appointment of county visitors.

School for Prisoners.

Columbus, O., Jan. 31.—Representative Carroll, of Franklin, introduced his bill, forecasted yesterday, providing for the establishment of a school for prisoners in the Ohio penitentiary today. It requires a state board of administration to establish such a school and to employ a superintendent and the necessary teachers. No salaries are fixed. It is provided that there shall be at least three hours school work in six days of the week, Sunday being excluded. Each prisoner is to be entitled to one month's diminution of sentence for advancement in grade that is made in his case. Life prisoners are excepted.

The Senate Passes 8 new Bills.

Columbus, O., Jan. 31.—The senate today passed a bill introduced by Senator M. Bernstein, of Cuyahoga county, creating a legal half holiday on election, the first Tuesday after the first Monday in November each year. The bill was drawn in the secretary of state's office. A companion bill was passed by the house yesterday.

Another measure which originated in the secretary of state's office and was introduced by Senator Bernstein, prohibiting employers from discharging electors who refuse to labor on Election day from the noon hour until 5:30 in the afternoon. The bill provides a fine of \$25 for violation of the act.

The senate empowered boards of education with the right to provide for the teaching of the German language in the public schools when the parents of 40 children demand it, by passing a bill introduced by Senator Frank Hillenkamp, of Lucas county.

A bill introduced today by Senator Daniel Mooney, of Auglaize county, provides that the board of administration shall act as commissioners of lunacy and shall have power to question, without expert assistance, the sanity of any person committed or confined in any state institution.

The commission is authorized to transfer the inmates of one state institution to another and if a convict, removed from the penitentiary and state reformatory recovers his sanity before the expiration of his sentence, he shall be ordered to be returned to the institution from which he was taken.

The Smith bill, authorizing municipalities to have incinerators and other weeds cut and destroyed will meet with opposition when it comes up for passage in the senate next Tuesday. The bill has already passed the house but advocates of home rule will fight the measure on the ground that such a law would be superfluous when cities are granted home rule, a pending administration measure.

Senator Haas, of Delaware, introduced a bill to prohibit spearing of fish.

The senate adjourned until five o'clock Monday afternoon.

BEGINS TOMORROW

Program Includes Inter-
scholastic Games for the

Manila, Jan. 31.—Athletes from China and Japan and other Oriental nations gathering here from the Far Eastern Olympiad were welcomed today by Governor General William Cameron Forbes. There are 36 Chinese and 15 Japanese athletes entered, as well as representatives of Siam and many sections of the Philippine Islands. The games begin tomorrow and continue for a week.

The program includes interscholastic games for the islands only, and the annual Far Eastern championships open to any athlete resident in the Orient. It is hoped that the contests will bring out material for the next world Olympiad in Berlin. Although the Oriental territory has a population of nearly 600,000,000, its athletic organizations have never been developed along western lines and it has never produced an athlete who won a place in a world Olympiad.

of Congress.

McCUMBER WANTS

And Provides That Major

Root Would Make Single
Term Rule Apply on
Four Years.

Washington, Jan. 31.—"I did not believe anyone would trust that this legislation was aimed at Colonel Roosevelt," declared Senator Cummings today, in advocating the Works single six year presidential term amendment in the senate; "but it has been very badly urged throughout the United States lately that we are legislating to make Roosevelt ineligible. There is no truth in such statements and I know they must be abhorrent to Colonel Roosevelt."

The debate centered about the declaration by Senator Williams, democrat, that unless such amendments were adopted, as to make Roosevelt, Taft and Wilson eligible for another term, the friends of Roosevelt and others might oppose ratification of the constitutional amendment by the states. "I think it is a low plane to put this debate on, to intimate that the resolution is being opposed because it might bar Colonel Roosevelt," said Senator Poindestor, progressive. "It is highly unpleasant to him and to his friends to have this debate reflect thus upon the ambitions of the friends or the opponents of senators who voted on this resolution."

Republican and democratic senators who urged that Roosevelt, Taft and Wilson all be made eligible for one more elective term, met the opposition of the progressives and of some of their own party members.

The progressive senators objected to a constitutional amendment that limited the right of voters to select their president; while they insisted that if any prohibition were made it should apply to all men equally.

When the senate took up the subject, Senator Root's amendment to make the constitutional amendment take effect March 4, 1917, was defeated on a viva voce vote, but by demanding a roll call he got it before the senate again for further consideration. As a substitute, Senator Hitchcock proposed an amendment to let Wilson, Roosevelt or Taft have one six year term under the new amendment.

"When we except these persons from its operations, we are making it entirely personal," declared Senator Borah; "we might as well name these three men in the amendment as being exempt from its provisions. We practically would be amending the constitution for their convenience."

Senator Paynter then proposed an amendment to make the six year term take effect in 1921. Senator Works, author of the original resolution endorsed Senator Hitchcock's plan.

Senator Clapp, progressive, took emphatic exception to his position. "It is a reflection upon the senate itself," he declared, "in our saying to the country that a great principle cannot pass this body unless three great partisan leaders are recognized and cared for in the legislation."

"If this change in our constitution is wise, and if this limitation is to be adopted, let us rise to the occasion and apply it to every man."

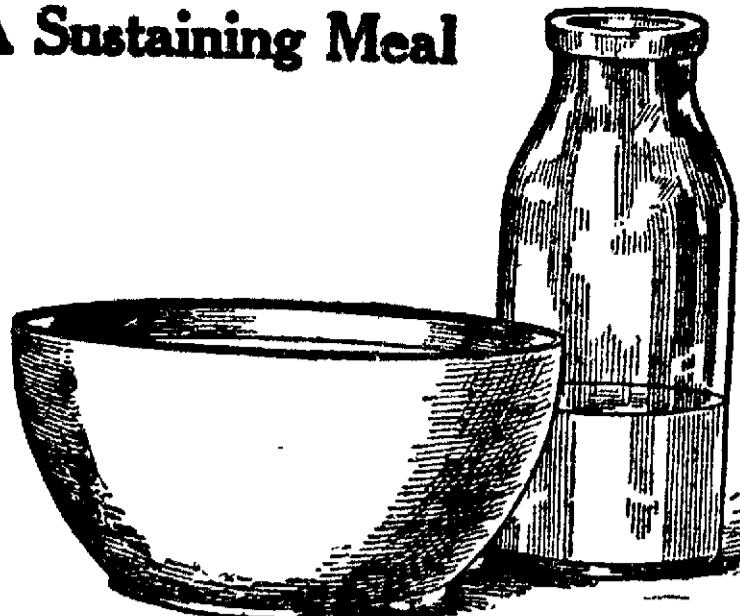

Senator Sutherland urged the adoption of the Root amendment, setting March 4, 1917, as the date. This brought another protest from the progressive ranks. Senator Poindestor declaring that if there was any danger of a man "perpetuating himself in office" because of his "ability and popularity" as friends of a single term claimed, that danger should be met by making the resolution immediately effective.

Senator Cummins favored. Senator Lodge opposed the resolutions for Wilson, Roosevelt and Taft.

SUSPENSION OF SNYDER

Ordered by Chief Earnst at Roll Call Last Evening.

IS CHARGED WITH
NEGLECT OF DUTY.

Accused Officer Will Have a Hearing Before Blank This Afternoon.

At roll call last evening, Chief of Police Earnst suspended Patrolman Ira Snyder on charges of neglect of duty, failure to make a written report, and making a false report. It was the first suspension made under the administration of the new chief of police.

Notice of the suspension of Snyder was made to Safety Director Blank at once, and that official announced that there would be a private hearing of the charges before him this afternoon at 2 o'clock. If the charges are sustained by the safety director, the accused officer will be subject to a penalty of either suspension from duty without pay or summary dismissal from the department.

The charges filed against Snyder grew out of a complaint made to Mayor Shook by two colored women last Tuesday morning, who alleged that Snyder refused to take action when it was reported to him that a couple were acting disorderly in a house on south Central avenue. The complaint was thoroughly investigated by the mayor and the chief of police, and sufficient evidence secured to warrant the suspension, it is claimed.

According to the statement of Chief Earnst this morning, Patrolmen Snyder and Armstrong were detailed on the long watch at police station between the hours of 5 and 7 o'clock last Tuesday morning. Snyder was stationed at the desk to answer telephone calls.

Some time between the hours named, one of the women called up police headquarters and asked that an officer be sent at once to arrest a man and woman who were conducting themselves in a disorderly manner in her house. Repeated calls failed to secure the desired police assistance, and the couple left the house without having been arrested.

On the afternoon of the following day, the woman appeared at police headquarters and filed an affidavit against the couple, charging them with disorderly conduct. They were later arrested and released on \$10 bonds each, which they forfeited through failure to appear for trial.

At the time the affidavit was filed, the complainant informed the mayor of the failure of the officer at the desk to give her police assistance, and an investigation was at once started.

When questioned, Snyder informed the chief that he was too busy attending to his other duties to answer the call, and that he did not deem it of sufficient importance to leave a written report of the affair. Chief Earnst considers his actions a willful violation of the department, and suspended him from duty pending an investigation by the safety director.

Snyder's Story. Patrolman Snyder, when seen at the office of his attorneys, Messrs. Armstrong, Light and Shappell, this morning gave his version of the affair, as follows:

"Armstrong and I were detailed on the long watch between 5 and 7 o'clock Tuesday morning. About 6 o'clock, the telephone rang, and a woman asked me to send a police officer to her home to eject a woman who was causing a disturbance. I secured her name and address, and then asked to talk to the other woman, as I supposed it was a woman having a little tilt with a roomer or boarder, and I wanted to get both sides of the controversy.

"While I was waiting for the other woman to come to the phone, the line was disconnected, and after some effort, I succeeded in having central connect me with the woman again. I again asked her to let me talk with the other woman, and she replied that she was coming to the phone. After some delay, the woman answered again, and said, 'Everything is all right; she is leaving.' Nothing was said to me about a man being in the house, or that he was involved in the trouble.

"It developed afterward that the man in the case was a brother to the woman who called, and that she did not want to have him arrested in her house under those circumstances.

"As the matter had apparently been settled satisfactorily without the need of the police, I did not consider it of enough importance to make a record of it on the report book. Soon after, I was busily engaged in arranging for the prisoners to have breakfast, and releasing a number of vagrants who had secured lodging for the night at police station, and the matter slipped my mind entirely. I never thought of it again until I was notified of my suspension last evening."

Will Fight Case. Snyder has retained Attorneys Armstrong, Light and Shappell to defend him of the charges, and expects to be vindicated before the safety director this afternoon. In the event that the charges are sus-

tained, the case will be appealed to the civil service commission, which body has final jurisdiction in the matter.

This is the fourth time that Snyder has been suspended from duty within the past two years. During the last year of the Dyer administration, he was suspended by Chief Vermillion with refusing to obey an order, and after a hearing before Safety Director McClain, was suspended for twenty days. This case was not appealed to the commission.

In the early part of the Shook administration, Snyder was again suspended by Chief Vermillion on the charge of making false reports, being off his beat without permission, and threatening his superior officer, Safety Director Blank. Snyder was dismissed from the force by the safety director, but reinstated by the commission, who decided that the charges were not substantiated.

Later in the year he was again suspended by Chief Vermillion on the charge of drinking in a saloon. This charge was not substantiated, and he was exonerated at the hearing before the safety director.

Snyder fully expects to be cleared of the present charges, and considers them of such flimsy character as not to warrant consideration.

Applicant for Captaincy. Snyder is an avowed applicant for the captaincy of police, and ranked second in the list of applicants who took the civil service examination last Wednesday evening. He and Frank Grant were tied for second place with 92 per cent. If the charges against him are sustained, he will be dropped from the eligible list.

FREE LIST OF THE TARIFF

Furnished the Concluding Chapter of Commission's Work Today.

TAFT VETOED THE FREE LIST BILL

That Was Framed by Underwood and Passed Last Year.

Washington, Jan. 31.—The free list of the tariff furnished the concluding chapter today of hearings before the house committee on ways and means. The free list, the administration features of the Payne-Aldrich law and miscellaneous affairs in connection with customs duties were under fire, with prospects for winding up of all the tariff hearings tomorrow. Half a hundred witnesses were on the program. The free list covers articles whose estimated domestic production in 1911 was \$1,190,000,000 and consumption \$1,059,000,000 out of a grand total of \$22,014,000,000 production and \$21,528,000,000 consumption of all articles in the fourteen schedules and free list of the Payne-Aldrich law.

In 1911 congress passed and President Taft vetoed the free list bill framed by Chairman Underwood's committee. The democratic leaders now figure on putting on the free list at the coming extra session substantially the same articles that were on the original free list two years ago.

BARTENDER ARRESTED

Jerome Shine Charged With Selling Liquor After Hours.

TWO BOTTLES CONFISCATED.

Accused Pleaded Not Guilty and Hearing Set for This Afternoon.

Jerome Shine, bartender at the Turf saloon on north Main street, who was arrested by Plainclothesmen Stewart and Blair last evening, appeared before Mayor Shook this morning, accompanied by his employers, Marty Hughes, and his attorney, John Klatte. Shine entered a plea of not guilty to the charge of selling after hours. His attorney immediately filed a motion to quash the affidavit on the grounds that the evidence was insufficient, but this was overruled by the mayor, who assigned the case for hearing at 2 o'clock this afternoon.

Shine was arrested about 1:30 o'clock this morning by the police officers, who claim that they detected him in the act of selling both whiskey and beer to customers. Two bottles, each partly filled and each containing intoxicating liquor in the form of whiskey and beer were taken from under the counter in the restaurant part of the cafe by the officers, and left at police headquarters to be used as evidence against Shine.

LAY BOUND FOR HOURS

Night Watchman in Department Store Overcome by Robbers.

SAFE WAS BLOWN WITH DYNAMITE.

Building Took Fire and Was Destroyed With Its Contents.

Chicago, Jan. 31.—For four hours early today Michael Roser, 5 years old, lay bound and gagged in the floor in a north side department store where he had been left by safe blowers, and watched smoke curling up from smoldering blankets, used by the thieves to muffle the sound of an explosion. Fearful that he would be burned to death without being able to give an alarm, Roser made frantic efforts to free himself when he saw the blankets blazing. He was successful in loosening a nail which held his arms and the removal of the gag from his mouth and the ropes about his legs was a matter of a few moments. He telephoned an alarm first to the fire department and then to the police. When the former arrived the interior of the building, which was of two stories, was in flames and the structure and contents were destroyed with a loss of \$75,000. The safe blowers, four in number, broke into the store shortly after midnight and according to Roser were only a few minutes blowing open the safe and escaping with \$1200. Roser was employed in the store as a night watchman.

MESSANGER JUMPED FROM BURNING CAR.

Stamford, Conn., Jan. 31.—Fire broke out near here today in the last car of a through train of express cars speeding from Boston to New York. The express messenger after a vain effort to put out the flames, pulled the emergency brake but the mechanism failed to work, and he was unable to get word of his plight to the cars in front. Within a few minutes he was compelled to choose between death in the flames and a leap from the doorway. He jumped as the train rounded a curve at 35 miles an hour and escaped with only slight injuries. The flames were discovered when the train stopped here for water and were extinguished by the local fire department. The damage to the car and its contents was estimated at \$50,000.

Jackson, Miss., Jan. 31.—News of the plight of 130 families marooned by the flood from the Beulah crevasse in the Mississippi levee, was received in a letter appealing for help, written to Governor Brewer today. The writer, a woman, declared many of the families were without shelter while others were imprisoned in the lofts of their homes without food. Lack of boats has retarded rescue work.

AGENCY IS ABOLISHED

Columbus Pension Office is Closed With End of Today's Business.

TWELVE MILLIONS PAID TO VETERANS

Will Hereafter be Sent to Them From the Federal Capital.

Columbus, O., Jan. 31.—The Columbus branch of the United States pension agency will be abolished with the close of business today. The sum of \$12,000,000 annually which heretofore has been paid to veterans of the Civil and Spanish-American war from the Columbus office will be paid out from the national capital at Washington. About 30 clerks were employed in the local pension office and the annual payroll amounted to about \$40,000. The majority of the local clerical force already has been transferred to the pension office at Washington.

Colonel W. L. Currey, who has had charge of the Columbus pension agency has not yet been assigned to duty under the new order of affairs and it is not certain whether he will be transferred to the national capital. Colonel Currey's position here was appointive, instead of being under civil service and many express the opinion that his services in government employ will end today. Requests which have been made to government officials to give him a position in the pension department at Washington have not yet been answered.

NEUTRALIZING THE 1 CENT
LIMIT.

do not, of course, question the
supreme court's interpretation of
the one-cent tax limit law, but only
as a deep regret that the leg-
islature did not pass a law that
would be proof against any adverse
interpretation. That law was the
important law placed on the
books for years. Its purpose
to promote three things, viz:
sincerity, honesty and equality and
as doing it. The people were
satisfied with it. It may have en-
couraged some inconveniences in spots,
but its general effects were whole-
some and encouraging. It is hoped
legislation will amend the law
to make it proof against fu-
ture construction.—State Journal.

Governor Cox took just the right
step as to the Smith law, when,
immediately following the decision
of the supreme court he sent a
message to the general as-
sembly, asking them to pass such
legislation as would cure the defects

of the law and pass a statute that
would surround the tax-payers with
the safeguards needed to prevent the
possibility of imposing a higher tax-
rate than is contemplated by the
Smith one per cent law.

In view of the fact that following
the passage of this law there was a
valuation of the real estate of the
state in which really was put upon
the duplicate at its full value, to
permit a condition to exist that
would mean a return to the tax-
rates which prevailed under former
valuations would amount to practical
confession of real property. The
present valuations will remain. They
have been placed upon the duplicate
and will not be reduced. Any person
in Lima who wants to see what it
would mean to him in the way of
tax payments to have the former
levies imposed again may easily as-
certain it if he will take the present
valuation of his farm or city prop-
erty and multiply it by 3.70 per cent,
the rate that prevailed in this city
before the adoption of the rate pro-
vided by the Smith law.

The policy of Governor Cox is ab-
solutely correct—correct the defects
of the law and permit the people of
Ohio to continue to have a low tax
rate limited to the necessities of
the various municipalities through-
out the state. The barrier is thus
imposed upon extravagance in pub-
lic expenditures, and the imposition
of burdensome taxation upon the
people.

If, in the preparation of amend-
ments to the Smith law, clauses
could be enacted that would place
upon the duplicate the vast amounts
of hidden personal property upon
which no tax is paid, a great work
would be accomplished. As the mat-
ter now stands real estate in the
cities and the farming land in the
counties of the state bear entirely
too large a per cent of the burden.

The report that was sent out from
Miami, Florida, that William J.
Bryan had been interviewed by a rep-
resentative of President-elect Wilson
and had agreed to accept the port-
folio of secretary of state, gave un-
disguised pleasure to the democracy
throughout the nation, who recognize
in the great Commoner an ideal per-
son for secretary of state. And al-
though Mr. Bryan dictated an abso-
lute denial of the report that such
an agreement had been made dur-
ing his talk with Mr. Alexander, the
rank and file of the party still hope
that he may be tendered the port-
folio and will accept it. The dis-
tinguished Nebraskan is the logical
person for this position. He pos-
sesses in an eminent degree the
qualifications necessary to the per-
son who accepts that position, and
would be a lucubral aid to the
president in making his adminis-
tration an ideal one.

INTERESTING, BUT NOT
IMPORTANT.

(Cincinnati Times-Star)
The legislature hasn't been in
session long—but the usual crop
of freak bills is already in evidence.
Take the grandly philanthropic
measure of Representative Warnes
of Holmes county, for instance. Mr.
Warnes thinks that double taxation
is wrong. He thinks it is wrong for
a farmer, whose land is mortgaged,
to have to pay taxes on the full
value of the land and then for the
owner of the mortgage to pay taxes,
too.

To get out of the difficulty, Mr.
Warnes would exempt the owner of
mortgaged realty from paying taxes
on the amount of the mortgage up
to one-half of his property. The
owner of the mortgage, on the other
hand, would have to pay taxes in the
county in which the land was lo-
cated. If he did not, the owner of
the land would pay the taxes and

deduct the amount from the princ-
pal due under the mortgage.

It must be confessed that this
scheme has the new and promising
plan of agricultural credits backed
off the boards, so far as its promise
of immediate financial gain to the
farmer is concerned. The only trou-
ble with it is that in practice it has
not the slightest chance of working
as it is expected to work.

For one thing it would be a very
difficult legal proposition for the
state of Ohio to compel a non-resi-
dent mortgage holder to pay taxes
in this state. Granting, just for
the sake of argument, however, that
this could be done, what would be
the result? On all future mortgage
loans the lender would either in-
crease his rate of interest, or, what
in practice would be even more un-
pleasant, he would make no future
loans on Ohio real estate. If a year
or two passed in which it was im-
possible for the farmers and small
property owners of Ohio cities to
borrow money on their land, there
would presently come an uproar that
would cause the offending law to be
repealed in short order.

Laws of this type are as old as
our government. There is a certain
type of American who always has
been ready, and probably always
will be ready, to believe in the en-
tire feasibility of lifting himself by
his bootstraps!

LIBERALS LOSE ONE
MEMBER BY DEATH.

London, Jan. 31.—Baron Iles-
ton, a distinguished member of the
Liberal party in the house of lords,
died today at the age of 73. Before
being created a peer he was well
known as Sir Walter Foster. He
was by profession a physician and
was the author of numerous works
on medicine, especially in connec-
tion with heart disease.
Extraordinary efforts were made
by both parties to bring every elec-
tor to the polls and as a result of
their exertions out of a total elec-
torate of 5,462 voters 5,341 cast
their ballots. Many of the sick and
infirm inhabitants were taken to
the polling booths in ambulances.
Much fear had been expressed
that the election would give rise to
serious disturbances owing to the
feverish excitement prevailing in
parts of Ulster at the present mo-
ment on the home rule question. A
large force of the royal Irish con-
stabulary had been drafted into the
city but their services were not of-
ten called into requisition.

The election on this occasion was
made more interesting by the fact
that both the unionist and home
rule candidates were Protestants.
The Protestant and Catholic inhabi-
tants of Londonderry are almost
equally divided and by putting for-
ward Mr. Hogg as a candidate it
was foreseen that he would carry
some of the Protestant home rulers
with him who otherwise would have
abstained from voting owing to reli-
gious differences.

Columbus, O., Jan. 31.—The state

LAY BOUND FOR HOURS

Night Watchman in Department Store Overcome by Robbers.

SAFE WAS BLOWN WITH DYNAMITE.

Building Took Fire and Was Destroyed With Its Contents.

Chicago, Jan. 31.—For four hours early today Michael Roser, 65 years old, lay bound and gagged on the floor in a north side department store where he had been left by safe blowers, and watched smoke curling up from smoldering blankets, used by the thieves to deaden the sound of an explosion. Fearful that he would be burned to death without being able to give an alarm, Roser made frantic efforts to free himself when he saw the blankets blazing.

He was successful in loosening a tie which held his arms and the removal of the gag from this mouth and the ropes about his legs was a matter of a few moments. He telephoned an alarm first to the fire department and then to the police. When the former arrived the interior of the building, which was of two stories, was in flames and the structure and contents were destroyed with a loss of \$75,000.

The safe blowers, four in number, broke into the store shortly after midnight and according to Roser were only a few minutes blowing open the safe and escaping with \$1200.

Roser was employed in the store as a night watchman.

The attractiveness of the story in "Bought and Paid For," which William A. Brady will present with his Playhouse, New York, cast and production, at the Fauror on Saturday afternoon and night makes this Broadway drama one of the strongest drawing attractions that has ever been offered to the amusement world. It is a play dealing with a phase of the marriage problem. It shows the dilemma of a telephone operator marrying a millionaire without be-

Other members of my family have used them with similar results." Take at the first sign of kidney trouble. M. M. Keltner.

MESSENGER JUMPED FROM BURNING CAR.

Stamford, Conn., Jan. 31.—Fire broke out near here today in the last car of a through train of express cars speeding from Boston to New York.

The express messenger after a vain effort to put out the flames, pulled the emergency brake but the mechanism failed to work and he was unable to get word of his plight to the cars in front. Within a few minutes he was compelled to choose between death in the flames and a leap from the doorway. He jumped as the train rounded a curve at 35 miles an hour and escaped with only slight injuries. The flames were discovered when the train stopped here for water and were extinguished by the local fire department. The damage to the car and its contents was estimated at \$50,000.

ENTIRE FAMILIES MAROONED BY FLOOD.

Jackson, Miss., Jan. 31.—News of the plight of 120 families marooned by the flood from the Beulah crevasse in the Mississippi levee, was received in a letter appealing for help, written to Governor Brewer today. The writer, a woman, declared many of the families were without shelter while others were imprisoned in the lofts of their homes without food. Lack of boats has retarded rescue work.

MIGHT SOMETIMES PROVE TIRESOME.

Washington, Jan. 31.—A joint resolution to make the "Star Spangled Banner" the official anthem of the United States has been introduced in the house by Representative Levy, of New York. It also provides:

"That whenever the 'Star Spangled Banner' is played on any occasion at any public place where persons belonging to any branch of the government service are present, they will stand at attention and all other persons will stand until the last note of the anthem."

THE WEATHER.

Columbus, O., Jan. 31.—Forecast Ohio: Snow and much colder with a cold wave; Saturday and generally fair; high west northwest winds.

Minnesota has got in bad again. The militant suffragists for a sure proposing a constitutional amendment granting women the right to vote has been rejected by a vote of 33 to 30.

Ordering the market has been ordered a misdemeanor and a violation of the Sherman anti-trust law, ruling of the United States supreme court, in an action brought by Patten, the spectacular "corn king."

By the time that the Balkan allies get through with Turkey, whether a peace pact is arranged, and a distribution made under its terms, or hostilities are resumed and various portions of the nation captured, there will not be much of Turkey left but the bones.

An echo of Cassie Chadwick's meteoric financial career is heard in the payment by the receiver of a final dividend to the stockholders of the Citizens' National bank of Oberlin, which was wrecked by overloaning to Cassie. The total dividends paid amounted to 67 per cent, leaving a loss of 33 per cent.

The rapid increase in the price of oil inspires the hope of those in the oil-producing field that the oil may start again and that part of the industry that has been quiet for the past decade may resume its active activity. It will be a boon to many quiet localities abandoned fields would be reopened. In many locations oil would be looked for in the lower sand.

NEUTRALIZING THE 1 CENT LIMIT.

do not, of course, question the same court's interpretation of one-cent tax limit law, but only as a deep regret that the legislature did not pass a law that would be proof against any adverse pretation. That law was the important law placed on the books for years. Its purpose was to promote three things, viz.: honesty, honesty and equality and doing it. The people were tired with it. It may have caused some inconveniences in spots, but its general effects were wholesome and encouraging. It is hoped the legislature will amend the law to make it proof against judicial construction.—State Journal.

Governor Cox took just the right step as to the Smith law, when, immediately following the decision of the supreme court he sent a message to the general assembly, asking them to pass such legislation as would cure the defects

of the law and pass a statute that would surround the tax-payers with the safeguards needed to prevent the possibility of imposing a higher tax rate than is contemplated by the Smith one per cent law.

In view of the fact that following the passage of this law there was a valuation of the real estate of the state in which reality was put upon the duplicate at its full value, to permit a condition to exist that would mean a return to the tax-rates which prevailed under former valuations would amount to practical confiscation of real property. The present valuations will remain. They have been placed upon the duplicate and will not be reduced. Any person in Lima who wants to see what it would mean to him in the way of tax payments to have the former levies imposed again may easily ascertain it if he will take the present valuation of his farm or city property and multiply it by 3.70 per cent, the rate that prevailed in this city before the adoption of the rate provided by the Smith law.

The policy of Governor Cox is absolutely correct—correct the defects of the law and permit the people of Ohio to continue to have a low tax rate limited to the necessities of the various municipalities throughout the state. The barrier is thus imposed upon extravagance in public expenditures, and the imposition of burdensome taxation upon the people.

If, in the preparation of amendments to the Smith law, clauses could be enacted that would place upon the duplicate the vast amounts of hidden personal property upon which no tax is paid, a great work would be accomplished. As the matter now stands real estate in the cities and the farming land in the counties of the state bear entirely too large a per cent of the burden.

The report that was sent out from Miami, Florida, that William J. Bryan had been interviewed by a representative of President-elect Wilson and had agreed to accept the portfolio of secretary of state, gave undisguised pleasure to the democracy throughout the nation, who recognize in the great Commoner an ideal person for secretary of state. And although Mr. Bryan dictated an absolute denial of the report that such an agreement had been made during his talk with Mr. Alexander, the rank and file of the party still hope that he may be tendered the portfolio and will accept it. The distinguished Nebraskan is the logical person for this position. He possesses in an eminent degree the qualifications necessary to the person who accepts that position, and would be a incalculable aid to the president in making his administration an ideal one.

INTERESTING, BUT NOT IMPORTANT.

(Cincinnati Times-Star.)

The legislature hasn't been in session long—but the usual crop of freak bills is already in evidence. Take the grandly philanthropic measure of Representative Warnes of Holmes county, for instance. Mr. Warnes thinks that double taxation is wrong. He thinks it is wrong for a farmer, whose land is mortgaged, to have to pay taxes on the full value of the land and then for the owner of the mortgage to pay taxes, too.

To get out of the difficulty, Mr. Warnes would exempt the owner of mortgaged realty from paying taxes on the amount of the mortgage up to one-half of his property. The owner of the mortgage, on the other hand, would have to pay taxes in the county in which the land was located. If he did not, the owner of the land would pay the taxes and a doctor's prescription for all skin diseases.

Skin specialists and physicians recognize Hekra as the scientific treatment for eczema, pimples, ulcers, acne, itch, and all other skin troubles. Hekra contains no grease or acids, is antiseptic and is so clean that it is a pleasure to use. Don't use some disgusting, unclean grease ointment but try Hekra and see what wonderful results follow its use.

The Melville Drug company, local agents, will refund the purchase price to any dissatisfied customer. Liberal jar for only 25c, larger sizes 50c and \$1.00.

deduct the amount from the principal due under the mortgage.

It must be confessed that this scheme has the new and promising plan of agricultural credits backed off the boards, so far as its promise of immediate financial gain to the farmer is concerned. The only trouble with it is that in practice it has not the slightest chance of working as it is expected to work.

For one thing it would be a very difficult legal proposition for the state of Ohio to compel a non-resident mortgage holder to pay taxes in this state. Granting, just for the sake of argument, however, that this could be done, what would be the result? On all future mortgage loans the lender would either increase his rate of interest, or, what in practice would be even more unpleasant, he would make no future loans on Ohio real estate. If a year or two passed in which it was impossible for the farmers and small property owners of Ohio cities to borrow money on their land, there would presently come an uproar that would cause the offending law to be repealed in short order.

Laws of this type are as old as our government. There is a certain type of American who always has been ready, and probably always will be ready, to believe in the entire feasibility of lifting himself by his bootstraps!

ORPHEUM THEATRE.

The Orpheum patrons were treated to a genuine surprise in the quality of the show presented at this popular play house yesterday afternoon. Miss Jean Wier and company presented one of the best comedy sketches ever seen here. The playlet has a beautiful setting which adds to the act. Mr. Jack Carrington, Miss Wier's leading man, will be remembered as he was the leading man with the Lewis-Clay stock which played Lima last spring. Others on the bill to please were the DeGrey Four, a quartette and East Alve Trio of acrobats offered a new and novel bar act which was a decided hit. The Murry Monarch, the two reel photo comedy by the famous Kinemacolor players, sent the big audience out smiling and in good humor. The show is up to the standard and is sure to prove a winner for the balance of the week.

LIBERALS LOSE ONE MEMBER BY DEATH.

London, Jan. 31.—Baron Hkston, a distinguished member of the Liberal party in the house of lords, died today at the age of 73. Before being created a peer he was well known as Sir Walter Foster. He was by profession a physician and was the author of numerous works on medicine, especially in connection with heart disease.

Extraordinary efforts were made by both parties to bring every elector to the polls and as a result of their exertions out of a total electorate of 5,462 voters 5,341 cast their ballots. Many of the sick and infirm inhabitants were taken to the polling booths in ambulances. Much fear had been expressed that the election would give rise to serious disturbances owing to the feverish excitement prevailing in parts of Ulster at the present moment on the home rule question. A large force of the royal Irish constabulary had been drafted into the city but their services were not often called into requisition.

The election on this occasion was made more interesting by the fact that both the unionist and home rule candidates were Protestants. The Protestant and Catholic inhabitants of Londonderry are almost equally divided and by putting forward Mr. Hoag as a candidate it was foreseen that he would carry some of the Protestant home rulers with him who otherwise would have abstained from voting owing to religious differences.

NOTORIOUS SWINDLER

ASSES A WORTHLESS CHECK FOR \$50 ON THE NORVAL.

W. Guire, Traveling Salesman, Gets Money and Disappears.

BOOK HAS COST FAMILY MUCH MONEY

Police Using Every Effort to Locate the Bogus Check Worker.

Letter Received From Chicago Company Spurs the Police to Action.

That H. W. Guire, the alleged representative of the Fisk-Kyle company of Chicago, who cashed a check for \$50 at the Hotel Norval Wednesday, is one of the most notorious swindlers at large in the country, is the gist of a letter received this afternoon by Chief Earnest of the Fisk-Kyle company. As a result of the letter, the police are redoubling their efforts to locate the check worker, and the police of neighboring cities have been asked to every effort to apprehend him. The letter states that even the police in this city that even the police themselves were led to believe that he might prove genuine, and it was entertained as to advising of placing him under arrest. The letter to the chief of police, company states that Guire's ramblings already redeemed over \$1600.

worth of bogus checks which he has passed from one end of the country to another, but that now they are anxious that he be apprehended and made to answer for his wrongdoing. Guire's family is quite prominent in the city of Chicago, where his parents reside.

The letter further states that Guire has been operating for the past month in the states of Texas and Alabama, and that scores of worthless checks have found their way to the Chicago bank on which they were drawn, only to be pronounced forgeries.

Police were at first inclined to H. W. Guire. From the evidence in the possession of Chief of Police Earnest, it would seem that the alleged forged check is genuine, and was presented to the hotel management in good faith.

Guire, whose business card indicates that he is a traveling salesman representing the Fisk-Kyle Brokerage company of Chicago, registered at the Norval Wednesday afternoon, and was assigned a room. During the afternoon, he presented a check to the clerk, Ernest Bierley, for \$50, signed by the Fisk-Kyle company, and countersigned by Neil Kyle, a member of the firm.

To more clearly identify himself, Guire gave the clerk a letter from the company, also signed by Neil Kyle, in which it was stated that the company was sending him a check for \$50 covering salary, and expenses, and acknowledging the receipt of orders and letters during the past week. He also gave the clerk a business card of the company, with his name printed in the lower left hand corner as an accredited representative. The letter was written on the company stationery.

When Bierley returned to work yesterday morning, he discovered that Guire had not occupied the room, and had left town. Immediately his suspicions were aroused, and he wired the company, asking if the check was genuine. A reply was received last night, stating that the check was a forgery.

Chief Earnest has the check, letter, card, and telegram, in his possession, and is inclined to believe that there has been a mistake. The telegram is signed by the company name only, and there is a possibility that the sender did not have knowledge of the check sent to Guire by one of the members of the firm.

However, the police are working quietly on the case, and are endeavoring to solve the mystery. Police officers worked all day yesterday on the case, but were unable to obtain the slightest clue as to Guire's whereabouts. Hotels in neighboring cities are being closely watched, and the police have instructions to hold the man pending advice from this city.

It is believed that a letter will be received from the Chicago firm within a day or so, fully establishing the fact as to whether or not the check is a forgery. It was drawn on a Chicago bank, and no effort has been made to ascertain its genuineness there.

The only discrepancy found by

the police is that the letter is signed by "Neil Kyle" and the check by "Neil Kyle." To an untrained eye, it is clearly evident that both signatures are in the same handwriting.

THE IDLER.

The position of stenographer for the Progressive Association, made vacant by the resignation of Miss Lura Bateson, was filled today by the appointment of Miss Nellie Malley, 472 N. Elizabeth street. Miss Malley was bookkeeper and stenographer at the City Book store for the past two years.

On Tuesday last, the Times-Democrat contained an article giving an account of the wounding of Lieutenant Cochran, of Spencerville, in the Philippines in a battle with the Moros, in which Carl Crites, son of D. H. Crites, of west Market street, in this city, was also engaged. Two days later our evening contemporary published the same facts, and on Friday the morning paper gave the belated news to its readers. Fresh news, published while it is really news can always be found in the columns of the Times-Democrat.

A. J. White, of Cincinnati, traveling auditor of the Ohio Electric Railway company, is in Lima, while going out over the various divisions, checking the offices. Mr. White will leave early tomorrow for his home, where he is superintendent of a Sunday school and where he is found every Sabbath in his place.

Mrs. J. C. Gillette, of Cleveland, is in the city, called here by the illness of Mrs. W. E. Penny. Mrs. Penny is improving but is still confined to her bed.

Local members of the club are somewhat tardy in making their reservations, although many have announced their intention of being present. In order that no one may be disappointed, at the last moment, it would be well for all reservations to be made before Monday, February 3rd, as many more requests for seats are being received from surrounding cities.

GOOD WOMAN FOUND REST

Call of Death Answered Today by Mother of Two Lima Men.

MRS. L. CAMPBELL PASSED THE GOAL.

For Past Two Years She Stayed With Son in This City.

Another journey was this morning completed, as just before the coming day dispelled the gloom of the night the hand of the angel of death snatched the eyes of a mother and sister. Mrs. Louisiana Campbell left this life for the reward that awaits beyond.

For the past two years Mrs. Campbell has made her home with her son, and family, T. M. Bowerman, of 666 north Jackson street. She came to Lima with this son and his family in the latter part of the year 1910, and has lived here since with them. A fine woman, good in every respect, beloved by all who knew her, and highly esteemed by all with whom she came in contact even in the slightest degree, the closing of her life draws the curtain on a career of great value.

Mrs. Campbell has been ill but a very short time, her condition having only been serious for the past four days. She passed away from an attack of heart trouble, in the seventy-fourth year of her life. She leaves two sons, T. H. Bowerman, at whose home she died, and Mr. David Bowerman, also of this city. Four daughters, Mrs. Mary Kitchen, of Beaverton, Michigan; Mrs. Nellie Tripp, of Mt. Pleasant, Mich.; Mrs. Della Bage, of Saginaw, Mich.; and Mrs. Lida Baker, of Milford, Mich.; one brother in Detroit, and one sister in Hamilton, Ontario. No funeral arrangements have yet been made, and none will be until the relatives from out of the city are heard from.

TWO YOUNGSTERS GET INTO TROUBLE

Two youngsters, Ernest Ditz, aged 12, and Arthur Holman, aged 14, were arrested by Detective H. F. Riley, of the Erie Railway Co., Friday morning and taken before the Allen county juvenile court on a charge of stealing coal.

Detective Riley alleges that the boys would climb on the top of filled cars throw the coal to the ground and then cart or carry it away.

Juvenile Judge Hutchinson set Monday evening at 7:30 o'clock for the hearing, the night session being arranged to enable the fathers of the youthful prisoners to appear after their regular working hours.

ROOSEVELT WOULD BE INELIGIBLE

(Continued from Page 1.)

counter proposals were pending before the senate today when it resumed consideration of the Works resolution for a single six year presidential term. Those included many amendments designed to exempt Wilson, Taft and Roosevelt from the effect of a change in the constitution and some amendments so drawn as to expressly exclude Colonel Roosevelt from another term.

The senate was still in the legislative day of yesterday, as it had agreed to vote on the Works resolution during the "legislative day of January 30." It was expected that a final vote on the resolution and all amendments might be reached before night.

At least four of the amendments pending were to restrict a president to two terms but to count "a fraction of a term" as a full term. An amendment by Senator Gallinger proposed a four year term, with the provision that "no person who has held the office by election, or discharged its powers and duties, or acted as president," should be "eligible to hold the office by election more than one additional term."

An amendment by Senator Hitchcock was similar but provided a six year term with one re-election.

An amendment by Senator McCumber also limited a president to two four year terms and provided that any service as president for the "major fraction" of a four year term should count as one term. Senator Williams' amendment, similar to this, would have counted "any fraction of a term" as a full term.

Under any of these amendments, Colonel Roosevelt would be ineligible for re-election. An amendment by Senator Paynter proposed to extend the six year term to the president in office when the constitutional amendments should be ratified; another by Senator Dixon proposed expressly to exempt President-elect Wilson from the restriction of a single term, and an amendment by Senator Root proposed to make the single term take effect after March 4, 1917.

An amendment offered by Senator Clark, democrat of Arkansas, proposed that the new constitutional amendment should not affect the president in office when adopted or any former president. This would have exempted Wilson and Roosevelt.

COMPANY C AT THE MERCY OF OFFICERS
Annual Inspection Today by Capt. Anderson, Bryant, Wood and McMaken Here.

Today is the real big day of the year in the annals of the Company C, of the Ohio National Guard, for the officers are here, and are making their inspection. This comes but once in a twelve month, and on it and the showing that is made depends the ranking of the company as a unit and the regiment as a whole for the ensuing year. Company C has ever stood high in the Second regiment, and the regiment at the top for some time past.

Colonel Bryant, of the second, arrived last night with Captain Anderson, of the Ninth United States Infantry, who will make the inspection. During the day the time was occupied by these men in making the rounds of the equipment and supplies in the local armory, and in inspecting the headquarters. Tonight the men will undergo inspection, and will receive instruction from the federal officer, Captain Anderson. General Wood, the head of the Ohio National Guard of the State of Ohio, recently appointed by Governor Cox, will be present tonight to assist in the review. He will be accompanied by General McMaken.

ROBBERIES REPORTED

Entrance Gained to Confectionery Store on East North Street.

NOTHING OF VALUE TAKEN.

Futile Attempt Made to Rob the Johnston Sporting Goods Store.

Police are working on two attempted robberies which so far have baffled all efforts of the officers to fix the guilt on the proper parties. Thieves forced their way into the M. Y. M. confectionery store at 212 east North street some time last night, but were evidently frightened away before they were able to secure anything of value from the stock.

The robbery was discovered by Merchant Policeman Vinegar, who in making his rounds about one o'clock this morning, noted that the light usually left burning inside was out. He investigated, but was unable to find anything wrong. About a half hour later he again returned to the place, and this time discovered that a piece of glass, about eighteen by thirty inches, had been removed from the front door.

The packages of candy were found on the front door step and another package on the floor near the door. W. F. Yazel, manager of the company, was notified, and he arrived within a short time to make an investigation. A careful search failed to disclose anything of value missing from the store.

Police are of the opinion that the robbery was the work of boys, but so far have no clue to their identity. Vinegar reported that he noted two lads standing near the store when he made his first investigation. It is believed that they entered the store, but were frightened away upon his return.

Attempt at Robbery.

Police were also notified of an attempted robbery at the Johnson Sporting Goods store at the southeastern corner of the public square some time last night. The store has been closed for several days in order that an invoice of the stock could be taken, as the proprietor made an assignment some time ago.

Eight holes, made by an augur, were found at the lower part of the lock on the front door, indicating that the robber contemplated removing the lock to gain admittance. He was probably frightened away while at work, as the place is one of the most public in the city. No damage was done, except to the door, which is badly marred.

GIRL'S TEAM AT FT WAYNE

High School Aggregation to Meet the Hoosiers Tonight.

TEAM LEFT TODAY ON OHIO ELECTRIC.

Coach Bolen Prophesies a Sweeping Victory for the Locals.

After having divided honors with the last aggregation from Cincinnati, taking one game and losing the other, the Lima high school girls have fully found themselves, and are in the most excellent condition for their game tonight. They meet the fast aggregation from the Ft. Wayne high school in the gymnasium of that school in the Indiana city. That they will bring back with them the scalps of the Hoosier team was

sworn by all the Lima girls when they left this afternoon on the Ohio Electric for the scene of the contest.

The local girls have been devoting a great deal of time to their practice work in the recent past, and are in the finest kind of trim for a fast game. Coach Bolen, who has had the team in charge since the beginning of the season, is confident of victory tonight, and thinks that there is not another team in the state which can compare with Lima's.

Much of the success, and the late improvement in the playing of the girls is due to the great interest which they have taken in this sport, and their conscientious practicing. Almost every member of the team is rated at one hundred percent, and it is difficult for the critic to pick out any one particular star. Miss Beatrice Thomson, the center, and captain of the sextette, profiting by her past experience, is one of the cleverest center players ever seen in this city, and her coolness in the game qualifies her perfectly for her position of field captain. The aggressive work and the basket shooting skill of Miss Clara Graham place her at the front.

On the trip today the team was accompanied by Miss Beattie and Miss Longworth, teachers in the high school, as chaperones, and by Coach Bolen. The line-up: The Misses Beatrice Thomson, C; Gerlie Spangnagle, C; Florence Morrison, G; Helen Spangnagle, G; Florence Pries, F; Clara Graham, F; and Lucy Cullen, sub.

Fast Game in Lima.
It is expected that tonight's basket ball game between the Business Woman's club and Piqua girls will be one of the fastest exhibitions ever played. John O'Connor of the White Stars, who is the official coach of the Business Women, is confident of the success of his team. The game will be played at Wheeler hall and will be called at eight o'clock.

THIN FOLKS MADE PLUMP

Samose Ideal Flesh Builder Says Middle Drug Company.

Thin people are simply suffering from want of nourishment! If you are thin, it is because the food you eat is not assimilated and passes through the system without building up the flesh and tissue as it should.

You can readily get plump and rosy by using Samose a tissue-forming food which when taken with the meals, immediately becomes a flesh-building and life-giving element in the blood.

Samose builds up the system, puts flesh on the bones, brings back the glow of health to the pallid cheeks and removes the tired and languid feeling which is the result of exhaustion and low vitality.

The Melville Drug Company is introducing Samose to their customers and recommends it highly. They give the best proof of their belief that Samose will do all that is claimed for it by offering to refund the money if it fails to increase the weight and restore good health.

PRESIDENT OF ADAMS COMPANY

Recognizes the U. S. Government as a Competitor in the Matter of Handling Freight.

The Adams Express Company is the first of the private transportation companies to recognize the United States government as a permanent competitor in the manner of handling freight through the parcel post system. In a circular letter, addressed to all agents and employees of the company, recently, President W. M. Barrett of the Adams Express Company, has the following to say: "Because of many inquiries from employees and others, it is deemed proper to state the attitude and policy of the Adams Express Company toward the parcel post inaugurated on the 1st instant: "The Company appreciates that the parcel post has been established in response to a widespread and persistent demand, and anticipates it will be to devote its energies to rendering a service even more efficient and satisfactory than in the past, and all officers and employees are directed to exert every effort to that end. The company does not wish any of its employees to adopt a policy of fault-finding toward the parcel post, but expects them by their efficiency to demonstrate to its patrons the necessity for the Express Company's distinctive service."

DR. JONES INCENSED

BECAUSE THE COUNCIL DOESN'T AGREE WITH HIM

That City Plumbing Inspector is an Immediate Necessity.

SOMETHING ROTTEN IN DENMARK, HE SAYS

Lima Health Officer Agrees With the State Board of Health

That City Should be Bonded for Thousands of Dollars for Water Care.

Highly indignant because the city council did not see fit to appropriate \$700 for the position of plumbing inspector because the board of health so recommended, Dr. A. L. Jones, health officer took occasion to go on record as a critic of the city's present legislative body.

"If the city council will not take action on matters clearly in the public interest, it should be compelled to act," said the city's health guardian.

"The city council has not given this board or the citizens a square deal in the matter of the city plumbing inspector," continued Dr. Jones.

"The members of this board are on a party with the members of the city council in the importance of their work and in legal standing. When we make a recommendation,

A DOCTOR'S PRESCRIPTION FOR ALL SKIN DISEASES.

Skin specialists and physicians recognize Hokara as the scientific treatment for eczema, pimples, ulcers, acne, itch and all other skin troubles.

Hokara contains no grease or acids, is antiseptic and is so clean that it is a pleasure to use.

we are entitled to consideration and if it is deemed necessary to reject any proposal made, it is not only required in courtesy but in duty to inform this board what the reasons are for action taken. In this matter the council voted not to give us the money without making the reason clear in the open debate, nor have we since been officially advised why the action was taken.

"There is either something rotten in Denmark, or the council simply does not care about what we recommend," continued Dr. Jones. "These councilmen are not little tin gods, that we should bow down before them. The refusal of the council to act has been reported to the state board of health and I am assured that the board will communicate with the city officials regarding the matter."

All Members Present.

The board of health met in regular session, with Mayor Shook in the chair, and the following members present: C. F. Stollenbach, W. W. Calvert, Z. A. Crosson, E. W. Mosler and J. P. Miller.

Shook Starts It.

"Are we going to elect that plumber tonight?" asked the mayor-chairman. Then came Dr. Jones' volcanic tirade of those who opposed immediate action on his recommendation.

Some of the members of the board of health were in favor of making an appointment and relying on Dr. Jones' statement that the office would be self-sustaining. The majority, however, considered the risk too great, and no inspector was named.

Lima Health Excellent.

Dr. Jones reported the health of Lima to be in good condition, in spite of the extremely open winter. There is no more smallpox, the two mild cases at the detention hospital being discharged.

There are but seventeen contagious cases within the city at the present. Of these, nine existed at the beginning of January, 41 developed during the month and 33 had been discharged. These cases were, measles, 14; scarlet fever, 8; diphtheria, 8, and chicken pox, 11.

City Chemist Van Wirt's annual report, the same that was read at the last meeting of the city council, was read.

DAVID ORWIG FELL; FRACTURED A HIP.

Thrown From Position On Express Wagon As Wheels Bounced Over Rails.

Thrown from his seat on the top of his wagon when it bumped across the rails at the crossing of the Pennsylvania railroad and north Jackson street, David, Orwig struck the ground with such force that he sustained a very severe fracture of the hip joint. He was rushed at once to the city hospital in the Whitley ambulance, where the fracture was reduced, and last night he rested very comfortably.

Mr. Orwig had pulled his wagon, which was loaded with express, to the side of the street to give room for an automobile to pass, and his generosity resulted in his giving too much ground. He missed the crossover of the roadway, and when his wagon raised over the five inch rails, he was thrown.
